Los Angeles born, Astro Black, is a musician, DJ and MC with a long history in the music industry, playing his first professional gig at the age of 15, touring with Jurassic 5 as a support DJ. He has played alongside some of the industry’s biggest names in music including Lyrics Born, Arrested Development, NWA, Xzibit, Spearhead, The Marley Boys and Bone Thugs, among others.

Astro is often called “the DJ’s DJ”, known for his seamless blend of genres and party rocking sets. He has rocked crowds in USA, Europe, UK, Australia and Morocco. His passion for Hip Hop music drives him to always represent the five elements of the culture; it’s not uncommon for him to have B-Boys and Graf Artists on stage while he is on the “one’s and two’s”. Astro has also been known to produce for other artists, but maintains that he must first see something unique in an artist before he will give them a track.
